HANNIBAL INDUSTRIES

Size: 46,000 Square Feet

Location: Los Angeles, California

Challenge *BUR Capsheet With Major Leaks*

- Constant stress from operations.
- Cracks propagating from several roof skylights.
- Ongoing leak problems and mounting leak repair costs.
- No provision for air conditioning.

Solution *AcryPly® Roofing System*

- Seamless, reinforced membrane.
- Double reinforcement of problem areas.
- Extra impact and tear resistance.
- Cooler, more comfortable work environment.

Hannibal Industries, Inc. now has a sustainable roof that reduces building temperatures, minimizes thermal stress, and provides excellent waterproofing for years to come.
