SAMSUNG ELECTRONICS

Size: 114,000 Square Feet

Location: San Jose, California

Challenge *BUR Capsheet Roof Leaks*

- Weathered and leaking BUR capsheet.
- Heavily occupied building.
- Low-rise, climate-controlled space.

Solution *AcryShield® SPF System*

- No ponding water.
- No costly tear-off and business disruptions.
- Added insulation and energy efficiency.
- Sustainable roofing system.

Samsung has broken the cycle of re-roofs and tear-offs by overlaying their aging BUR roofs without disrupting business operations.
